Introducing the EsthervilleHQ App

Download the EsthervilleHQ app from the app store to manage your settings and all the devices that are connected to your WiFi network through your Gigaspire.

Included **FREE** Features

Basic Parental Control

Set family member profiles and assign unique devices for each profile. Best of all, with just a click you can pause Internet access temporarily to a single profile or multiple profiles.

Guest Network

Enables you to quickly and easily set up a network for guests so when Aunt Betty comes to visit you don't have to give out your family's WiFi password. Just another way to keep your family safe and secure.

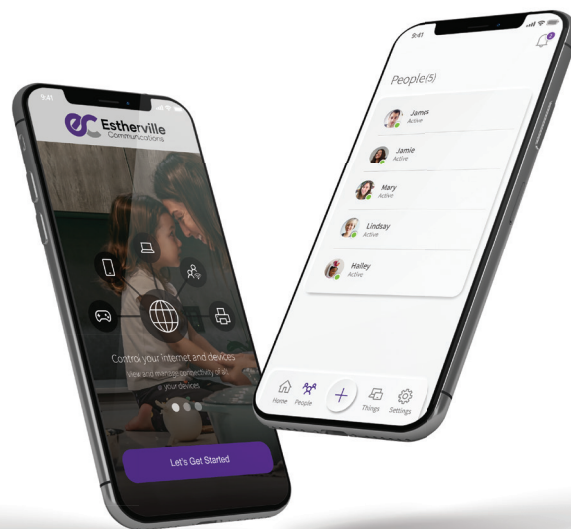

Device List

Shows a list of devices connected to your WiFi network.

Network Usage

Shows how much bandwidth each device on your network is using after running a bandwidth test. Make sure the kids' streaming isn't eating up your bandwidth while you're trying to video chat for work.

Powerful Content Filtering

Upgrade to our enhanced Parental Control Package with content filtering all within the **EsthervilleHQ App**

You set the boundaries, we help keep them. Enhanced Parental Controls provide the ability to set app and content filters, block websites and set time limits.

ALL OF THE BASIC PARENTAL CONTROL FEATURES, PLUS:

Internet Filtering:

Completely remove access to specific websites and apps.

Usage History:

See a list of sites or apps each profile has accessed, & the time spent on each site/app. View the list by day, week or month.

Time Limits:

Set the amount of time each family member can spend on online. Conveniently sort by websites, games or apps.

Scheduling:

Set times by day for online use, whether it's bedtime, supper-time or just screen-free family time.

Safe Search:

Safe Search defaults Google and Bing searches to remove explicit content from their results.
